

## **Biography:**

### **David W.Sweeten, Technology Leader, BP**

David Sweeten works within BPs Crisis and Continuity Management program as a Technology Theme Leader. In this role he provides leadership in the development of a R&D portfolio for the themes of Oil Detection & Surveillance as well as Waste Management.

During the Deepwater Horizon response he filled a number of leadership roles within the environmental unit at the Mobile, Alabama Command Post and as serving as the Gulf Wide Waste Management Program Lead within the Unified Area Command.

Prior to joining BP in 2007, David worked as an environmental consultant for a variety of industrial clients with an emphasis on environmental restoration, risk management, and safe and reliable field operations.
