

Biography:

Dr Sharon Burton, Company Representative and Technical Adviser Aberdeen, Oil Spill Response Ltd

Sharon joined Oil Spill Response from the Royal Navy, where she served as a Marine Engineer. She has a BSc(Hons) in Animal Biology and a PhD in Biochemical Entomological Parasitology.

During her time with the Company Sharon has responded to spills in Africa, the UK and the USA and has completed secondments to Maritime New Zealand and AMOSC.

Sharon joined the Training Team in 2008, where she created the Environmental Advisors Course. She has presented training courses around the world, and became Principal Trainer running the Training Team in 2009.

She is currently on secondment as the Company's Aberdeen Representative and Technical Adviser.
