

Interspill Academy Short Courses
Monday 7 April 2025, ExCeL London
Part of Interspill 2025

Course Title:

Tackling the HNS risks at sea: from maritime transport to possible mitigation strategies

Course Timings:

12:30-14:45

Course Length:

2 hours 15 minutes (incl. break)

Level:

No previous knowledge required.

Instructors:

Cedre

Course Summary:

This course will explore key aspects of responding to HNS incidents, using the Bauhinia incident as a central case study. Participants will gain insights into:

- Introduction to HNS challenges – Understanding the complexities of hazardous and noxious substances.
- Risks & Behaviour of HNS – Examining how different substances react and pose threats.
- Situation Assessment & Response – Identifying the right response strategies based on incident evaluation.
- Environmental Impact – Assessing short- and long-term ecological consequences.
- Decision Support Tools – Utilizing specialized tools for effective decision-making in HNS incidents
